Landscape Options for SLR

Jane Ellis reviewed a document on the topic. After discussion, there were a few additions and clarifications. The final document is attached.

Discussion on Weston & Sampson – Meeting Summary of February 28, 2018 Meeting

Jim Chitwood reviewed a document on the topic. After discussion, there were a few additions and clarifications. The final document is attached as well as an elaboration from the mayor about his communications concerns.

Upcoming Meeting

All of our SLR committee are invited to April 12th Berkeley Electric meeting at 1:30 at KICA's Beach Walker Center (old town hall) in the Palmetto Room.

Recommendation from Additional Discussion

It is time to start bringing some key people up to speed on the SLR work so they are not caught by surprise when our report comes out and they have an opportunity for suggestions and some buy in. Maybe John Leffler can repeat the presentation he gave to the "Group of Golfers" (not sure of name) to several key groups. Suggested groups are: (1) KICA board & Jimmy Bailey and (2) Roger Warren of the Resort. Be sure to note the active participation, input and help of their staff on the Environmental Committee and with KICA on the SLR subcommittee. The ARB is involved in our SLR work but it is not clear how aware the Partners are – so maybe talk to them as well.

New Subcommittee Member

Sara Senst, the new ARB Director, will be attending our future meetings.
